### Table of Contents

**High Resolution Multi-spectral Imagery**  
Jim Baily, AirAgronomics  

**Adopting Controlled Traffic on an Average-sized Property in an Economically Rational Way**  
Wes Baker¹ and Paul Blackwell², ¹Corrigan WA, ²Department of Agricultural and Food Geraldton, WA  

**Yield Limiting Factors in Relation to Precision Agriculture along the South Coast of WA**  
Derk Bakker¹, Grey Poulish¹ and Dan Murphy², ¹Department of Agriculture and Food Western Australia, Albany, ²University of Western Australia, Perth  

**Development of Controlled Traffic in WA and Future Directions Integrated with Precision Agriculture**  
Paul Blackwell, Senior Research Officer, Department of Agriculture and Food, Geraldton Regional Office  

**The Use and Effects of Controlled Traffic Farming**  
Jacob Bolson and Amy Kaleita, Dept. Agricultural & Biosystems Engineering, Iowa State University  

**Does the Direction of In-Field Controlled Traffic Affect Runoff, Erosion And Crop Yield?**  
M.V. Braunack¹, B.C. Lynch¹ and S. Neilsen², ¹Qld Dept Primary Industries and Fisheries, LMB 6, Emerald, Qld 4720; ²Qld Dept Natural Resources and Water, PO Box 19, Emerald, Qld 4720 Australia  

**Demystifying Guidance - Steering a Straight Line through the Hype**  
Wayne Chapman and Tim Neale, CTF Solutions  

**Wheeltracks and Widths**  
Wayne Chapman, CTF Solutions  

**Controlled Traffic Farming in Central Queensland**  
Colin Dunne, Sorrell Hills Cattle, Duaringa Qld  

**Variable Rate Application and Controlled Traffic at Cunderdin, Western Australia**  
David Fulwood, Cunderdin, Western Australia  

**Impact of Controlled Traffic Raised Beds on our Property: “STRUAN” – in High Rainfall South West Victoria**  
Cam Gibson, camandcara@hotmail.com  

**Variable Rate Technology – Points to Consider in the Workshop in Data Collection, Interpretation and Translation to Practices**  
David Hall, Senior Research Officer, DAFWA, Esperance, WA  

**Using Controlled Traffic to Engineer Seedbeds for Increased Water Conservation, Crop Production and Profit**  
Greg Hamilton¹, Jessica Sheppard² and Rod Bowey¹, ¹Department of Agriculture and Food and ²Avon Catchment Council
Leighview

Stewart Hamilton

A New Farming System for the Sugar Industry

Brad Hussey, BSES Limited, Mackay

Accurate Data Management for Precision Agriculture

Doug Jeans, Rinex Technology

The Journey is Great, but does PA Pay?

Garren Knell, ConsultAg, Alison Slade, DAFWA, CFIG

Electromagnetic Soil Mapping – Implementing the Outcomes

Quentin Knight, Consulting Agronomist, Precision Agronomics Australia, Esperance WA

Precision Farming with Machinery and in the Farm Office

James Lang, AGCO

How Responsive is my Paddock?

Roger Lawes1, Yvette Oliver, Michael Robertson, Trevor Parker
CSIRO Sustainable Ecosystems, 1CSIRO Sustainable Ecosystems, CELS Floreat, Underwood Avenue, Floreat, WA

Yield Maps - More than just Pretty Pictures? Does Soil Depth Explain Spatial Variability on a Central Queensland Black Vertisol?

B.C. Lynch1 and C.P. Dougall2, 1Qld Dept Primary Industries and Fisheries, LMB 6, Emerald, Qld 4720, 2Qld Dept Natural Resources and Water, PO Box 19, Emerald, Qld 4720

Farmer Trials and Experience Prove the Adoption of Precision Agriculture Technologies is Profitable in Western Australia (WA)

I.R. Maling1, M. Adams2, M. Robertson3, B. Isbister4, W.J. Bowden5
1Silverfox Solutions 1B/1 Sarich Way Technology Park Western Australia 6102, 2Department of Land Information 65Brockway Rd. Floreat WA 6014, 3Commonwealth Scientific and Industrial Research Organisation (CSIRO) PMB 5, PO Wembley, Western Australia 6913, 4Department of Agriculture and Food Western Australia (DAFWA) 20 Gregory St, Geraldton 6530, 5DAFWA 2 York Road Northam WA, 6401

Multiple Benefits from Inter-row Sowing with 2cm RTK GPS

Matthew McCallum, McCallum Agribusiness Consulting, Ardrossan SA

Farmer Case Studies on the Economics of PA Technologies

Matthew McCallum, McCallum Agribusiness Consulting, Ardrossan SA

Addressing the Challenges of CTF for the Vegetable Industry

John McPhee1 and Peter Aird2, 1Tasmanian Institute of Agricultural Research, Devonport, Tasmania, 2Serve-Ag Pty. Ltd., Devonport, Tasmania

Networked RTK using the Internet for Controlled Traffic Farming

James C. Millner1, Hayden Asmussen1, Jacqueline Denham1, Martin Hale1, Jeremy White2, Don Yule3, 1Department of Sustainability and Environment (DSE), Melbourne, Victoria, 2Department of Primary Industries (DPI) Ballarat, Victoria, 3CTF Solutions, 56 Iona Tce Taringa, QLD 4068
Using CTF as the Basis for Novel Farming Systems – Improved Nitrogen Utilization

As a Case in Point

Clay Mitchell, The Mitchell Farm, Iowa, USA

A High Quality CORS Network for WA

Linda Morgan, Landgate, Perth, Western Australia

Precision Agriculture for CTF farms

Tim Neale and Wayne Chapman. Directors, CTF Solutions, P.O.Box 1088, Dalby 4405

Getting the Most Out of your Spatial Data

Yvette Oliver¹, Michael Robertson¹, Bindi Isbister², Ian Maling³
¹CSIRO Sustainable Ecosystems, ²DAFWA , ³Silverfox solutions

OmniSTAR leads CORS Network High Performance Positioning Study for Greater Accuracy

Rosanne Pacecca

Controlled Traffic Delivers Soil Structure Benefits at Depth in Cracking Clay Soils

Renick Peries and Chris Bluett, Department of Primary Industries, Geelong. Vic 3220

Chemical and Non-chemical Weed Control Opportunities in CTF – A European Experience

Glen Riethmuller, Department of Agriculture and Food Western Australia, Merredin

The Economic Benefits of Precision Agriculture: Case Studies from Australian Grain Farms

Michael Robertson, Peter Carberry and Lisa Brennan, CSIRO Sustainable Ecosystems

Remote Sensing Applications in Peanuts: the Assessment of Crop Maturity, Yield, Disease, Irrigation Efficiency and Best Management Practices using Temporal Images

Andrew Robson¹, ², Graeme Wright¹ and Stuart Phinn³, ¹Queensland Department of Primary Industries and Fisheries, Plant Sciences, J. Bjelke Petersen Research Station, PO Box 23, Kingaroy, Qld 4610, ²University of Queensland, Centre of Remote Sensing and Spatial Information Science, School of Geography, Planning and Architecture. Brisbane, Qld 4072.

Does Controlled Traffic Have a Place in High Rainfall, Undulating and Difficult Environments?

J. Russell¹, J. Fisher², R. Murray-Prior², D. Pritchard³, E. Henson², J. Eaton², and M. Ashworth³, ¹Department of Agriculture and Food, WA; ²Muresk Institute, Curtin University of Technology; ³Western Australian No-Till Farmers Association, Northam.

A Manufacturer’s Perspective on Commercialising Technologies

Anthony Ryan, AGCO Australia, Melbourne

Seeking Profitability

Simon Tiller

Why Controlled Traffic Farming?

J.N. Tullberg, CTF Solutions

CTF and Global Warming

J.N. Tullberg, CTF Solutions
